

~~exercise~~

Schools should not invade student's privacy by telling them when to eat or how much to exercise. These choices should be up to the individual student.

\*students should make their own decisions so they can learn from them.

\*I agree with this position because students should know what's good for their body.

\*students should make decisions by themselves. It will make them become more mature.

\*students should learn to take care of themselves and know how much they love themselves and have a healthy life.

\*If you tell a student what they are over, you will make them feel bad and they will sometimes make bad choices.
